RE: Follow-up from the 2020 Vision Public Forum

DATE: March 21, 2016

As part of the 2020 Vision planning process, we hosted a public forum at Carpenter School on October 21, 2015. During the course of that meeting, I heard from a number of you on a variety of issues ranging from panhandling along Carpenter/Packard, street lighting in your neighborhood, general public safety and code enforcement related issues.

Since then, our team has come together to outline a plan to address your concerns and we have been in touch with some of your neighbors on the same. However, we would like an opportunity to present to all of you an outline of the solutions we have either implemented or would like your input on before implementing. As such, I am writing to request your attendance at a meeting being hosted by Pittsfield Township at Carpenter School on April 11th at 6:30 PM.

At this meeting, we will cover the following topics:

Cut-Through Traffic: Steps we have taken to work with Washtenaw County Road Commission to implement additional traffic calming measures in the neighborhood

Street Lighting: Share two proposals from DTE for street lighting in the neighborhood, one that focuses on intersections and the other that is neighborhood-wide, to get your input before determining if/when/how to implement

Public Safety: Steps we have taken to address the panhandling + a report on our plans to improve overall safety in and around your neighborhood

Code Enforcement: Steps we have taken to identify issues such as lawn and general house maintenance + a report on our plans to address these on an ongoing basis and financial assistance resources available for the same

Recreational Programming: Steps we have taken to implement recreational programming at Carpenter School + a report on our plans for other recreational programming at Carpenter School

I hope your schedule will allow you to attend this meeting. If you are unable to attend, please feel free to contact us with your input/feedback at: 734.822.3135 or supervisor@pittsfield-mi.gov

Thank you for your continued partnership with us as we work toward continually improving the quality of life for all in our community.
