Re: Wolverine Pipe Line Company Detroit Metro Access Project, WFD-194, 194 Cathodic Protection Site, 195, 196, 197

Dear Landowner,

Since 2015, Wolverine Pipe Line Company (WPL) and Michiana Land Services, Inc. (MLS) have been in contact with you to explain and discuss WPL's proposed construction of a 16-inch diameter pipeline that will mostly parallel WPL's existing 16-inch pipeline, which crosses over and across property of which you are the owner of record.

A letter was sent to you July 18, 2016 advising you that this pipeline project will commence on July 25, 2016, with WPL's crews and contractors working within WPL's defined pipeline easement area along portions of the approximate 35-mile project length. Survey crews will mark the easement area, tree clearing crews will remove the trees, grading crews will clear ground cover and then the main pipeline construction crews will start work within your property.

Due to unforeseen circumstances, this pipeline project will now commence August 29, 2016. WPL's construction crews will be on your property sometime throughout the remainder of the year. Exact dates are unknown at this time.

All encroachments within WPL's defined easement should have been removed by you before July 25, 2016. If these encroachments have not been removed by you, WPL's contractors will remove them. It is also important that you notify any tenants you may have on this property of the upcoming WPL pipeline project.

During this project, if you have any questions or concerns regarding when our construction crews will be on your property, please do not hesitate to contact Ashlee Rudnick of MLS at (517) 610-9674 or by or e-mail at ARudnick@michianalandservices.com. Please reference the WFD file number indicated above when contacting MLS.

Thank you again for your assistance and cooperation during this pipeline construction project.

Sincerely,

A handwritten signature in black ink, appearing to be 'M. A. Greene', written over a horizontal line.

Marius A. Greene
Vice President & Manager
