WEEKLY FIRE REPORT

Total Calls for Service year to date: **822**

5-7-10, Structure Fire

The Pittsfield Township Fire Department was dispatched to the report of smoke coming from the roof of 2157 Arbor Circle West. The first arriving unit found smoke showing from the eaves of the apartment building. The seat of the fire was located in the master bedroom of apartment #208. Firefighters conducted a search of the building and found all occupants were out of the building. Firefighters conducted an aggressive interior attack on the fire and were able to contain the fire to the room of origin. Apartment #208 suffered severe smoke and fire damage. The other apartments did not suffer any smoke, water or fire damage. The residents were not home at the time of the fire and the American Red Cross is providing them with assistance. The fire is still under investigation but is not suspicious in nature.

5-8-10, Tree on Apartment Building

The Pittsfield Township Fire Department responded to the report of a tree that had fallen onto an apartment building. On arrival we found a large tree that had fallen, damaged the corner of the building and landed on top of a bank of gas meters. Firefighters evacuated the building due to the damage and gas leak caused by the falling tree. Firefighters shut down the gas to the building and assessed the damage to the building. The residents were allowed to re-enter the building after the gas was shut down to the building. The Pittsfield Township Fire Department has responded to multiple incidents this morning due to high winds including wires down calls and trees over the roadways.
