Microsoft Security: Vulnerability in Internet Explorer Could Allow Remote Code Execution

Microsoft released an updated version of Internet Explorer this month, and it's available as a free download on Windows 8.1, Windows 7, and Windows Phone 8.1. To increase your security and privacy, it's important that you use the latest version of any software, but especially your **web browser**. This new version of Internet Explorer also includes new features that make it easier to browse the web on a variety of devices. Click on the image below for Microsoft security tips.
