## Pittsfield Township Awarded \$1,475,000 MDEQ Grant

Pittsfield Township (September 14, 2015) – Pittsfield Charter Township received notification last week of receipt of a \$1,475,000 Stormwater, Asset Management and Wastewater (SAW) grant from the Michigan Department of Environmental Quality (MDEQ) to institute a rigorous maintenance schedule for our sanitary sewer system.

The Board of Trustees passed a resolution on November 13, 2013 in support of the grant application, which highlights Pittsfield Township's commitment to leveraging grant monies to implement projects, services and processes aimed at improving the quality of life for all and setting the gold standard in public service.

“Given that Pittsfield is a full-service community, our focus is on not only enhancing the front-end services such as roads, parks and public spaces but also to ensure that our back-end infrastructure remains in top-notch condition to support the current and future needs of our community,” noted Supervisor Grewal.

The Utilities & Municipal Services Department will lead the implementation of operations to be funded through the grant, which include the following: Sewer Cleaning and Televising, including additional Training and Inspection Certification, Inventory and Condition Assessments and Technology and Equipment upgrades which include Asset Management Software and Hardware upgrades.
