“When it comes to smoke alarms, it’s about location, location, location”

The **key message** of this year's Fire Prevention Week campaign, October 4-10, is to install smoke alarms in every bedroom, outside each separate sleeping area, and on every level of your home, including the basement. Larger homes may need more alarms.

NFPA is excited to share this important information so everyone better understands the life-saving value of home smoke alarms. Click on the image below to find NFPA's **"Smoke Alarm Central"** for more information.
