Pittsfield Township's Dynamic Communications Platforms

Pittsfield Township (March 17, 2016) – Pittsfield Charter Township is pleased to announce the release of its new line of informational brochures and the continued growth of its Website that provides for real-time information and communication on everything ranging from complaint submission and tracking to emergency notifications. The aim, as always, is to provide information and platforms that keep our residents and stakeholders engaged so they may partner with us to promote a better quality of life for all in Pittsfield.

The Eco-Friendly Living Brochure Series includes resources on Native Landscaping, Natural Lawn Care, After The Storm (Stormwater Management), and FOG (Fats, Oils, & Grease) Safety. The new Living with Urban Wildlife Brochure Series includes information about Coyotes and Deer Safety. There is also a new Road Safety Tips brochure that provides information about walking, biking, and driving safely with the knowledge that all modes of traffic must be respectful of the others.

“Pittsfield’s website is an example of leveraging available platforms to engage with and inform folks so they can partner with us to improve the quality of life for all in our community. Our new line of brochures offers resources and information on a variety of topics including respecting multi-modal traffic, navigating roundabouts and protecting water quality. These are yet another example of our commitment to setting the Gold Standard in Public Service and promoting sustainable solutions in our community,” noted Pittsfield Township Supervisor Mandy Grewal.

Check out the brochures at: <http://www.pittsfield-mi.gov/brochures>

Check out the Notify Me, Request Tracker (Report A Concern) and other features including customizing your own page to subscribe for information (e.g., emergency alters, road closures/construction, farmers market and other events, meeting agendas) you are interested in receiving at: <http://www.pittsfield-mi.gov>
