

REPUBLIC
SERVICES

Service Level Changes Due to COVID-19 Pandemic

Republic Services is an essential service provider during these difficult times. Rubbish and recycle service will continue as scheduled with a few modifications to protect Republic Service employees as well as the general public from any further spread of the COVID-19 virus.

Republic is **suspending bulk waste collection** as well as **limiting the quantity of solid waste to the contents of the cart only**. This will limit our employees possible exposure to COVID-19.

Yard Waste will be suspended until further notice. No yard waste will be collected, nor can it be added to the solid waste cart to be disposed of.

Our main goal at this point is the safety of everyone including the residents and our employees. While we all play a critical role in ensuring that service is delivered, we also play an equally important role in reducing the spread by practicing social distancing and reducing exposure to COVID-19.
